In order that they may have some fain iden of the rich treat which they may expect from the rare performance of this celebrated Circus, we subjoin the order of exercises which were precisely as follows:

First, Grand entrance by the chief manager and chief proprietor of said Circus, with their magnificent carriage, drawn by a cream olored horse. The entrance was by the Main street, and through all the principal streets in town, to the place of performance. The exercises of the evening were com

nenced by evolutions from E. D. Patten. And here we must say, in justice to Mr Patten, that he will turn more political som mersets in succession, and ride at one time more horses of the "Progressive Democratic breed, of course, than any man who has performed in Northern Ohio, within the memory of the "oldest citizen."

He was succeeded by Geo. W. Glick, first clown. We do not wish to laud any of our Circus performers, however celebrated they may be, but it would be doing Mr. Glick the perfect Clown we have ever seen.
